## Introduction

Welcome to the Cummins Service, Parts Catalog and Service Training Publications Catalog!

The Table of Contents will guide you to the publications you need.

Find the Engine Family and page starting that section.

The list of publications within each Engine Family Name is listed in this order:

- Operation and Maintenance Manuals & Owners Manuals
- Service Manuals
- Troubleshooting and Repair Manuals (including Kits)
- Master Repair Manuals
- Standard Repair Times
- Wiring Diagrams
- Shop Manuals
- Miscellaneous Engine Support Literature
- Parts Catalogs

Additional Literature which is not necessarily specific Engine Family driven is:

- Warranty & Non-Engine Specific Service Publications
- INTERCEPT and CEPC Products
- Training Materials, the Virtual College Training Program

Once you've identified the publication description you want, scan to the right of the items description and select the bulletin number of the language you are looking to order that publication in. A language entry of N/A means that the publication is not currently available in that respective language edition.

If you are interested in the Cummins Service/Parts Topics program in Print or CD-ROM editions, information can be found in the Cummins Service/Parts Topics section on how to order.

Finally, a section on Cummins Customized Service Parts Catalogs is available that explains how to order Customized Parts Catalogs specific to your engine.

### **Attention QuickServe Online Users:**

You can now download a PDF version of this Catalog from QuickServe Online. To access this electronic version simply login to QuickServe Online, then go to the Service Menu, under Related Information select the link to "Publications Catalog" and then click on the Graphic Picture that looks like the Front Cover of this Catalog.

## **How to Order Publications & Feedback Procedures**

To order publications, identify the bulletin number of the item you are going to order. Then contact your Cummins Distributor or respective Cummins Parts & Service Ordering Location to place your order.

This Catalog lists a considerable amount of printed publications that are available for your ordering and use. Care is taken to accurately communicate and represent the proper descriptions and bulletin numbers. If you notice any inconsistencies or corrections that need to be made to this catalog, please e-mail: [pubaids@merrickind.com](mailto:pubaids@merrickind.com) or call (502) 540-4981 to advise us of the requested update. Please Note: Inquiries on confirming your selection of the proper literature should be made to your Cummins Distributor or respective Cummins Parts & Service Ordering Location. This e-mail address and phone number is for providing feedback only.

## Cummins Service Publications Electronic Books on CD-ROM

Cummins Service Manuals now contain an encrypted companion CD-ROM version when you purchase a printed copy of the manual. Publications including a CD-ROM are:

- Operation and Maintenance Manuals
- Service Manuals
- Troubleshooting and Repair Manuals (including Kits)

The CD-ROM addition is a value added feature for those customers requiring a soft copy. No other soft copy version is available. These and additional Cummins Service manuals are available electronically through our QuickServe Online and Intercept information products.

Publications that include a CD-ROM version are identified in blue throughout this catalog. To receive these manuals, order the blue bulletin numbers. See the illustration below:

Operation and Maintenance Manual	Signature/ISX	3666251
----------------------------------	---------------	---------

The CD-ROM included with your manual provides you with the capability to view this publication electronically as well as perform searches. This CD-ROM is copy protected and will not allow Printing, Changing of Content, Extracting Content or Commenting / Annotating of the PDF file. See the complete system requirements and limitations outlined in the CD-ROM section of the Cummins manuals.

**Special Instructions for Cummins PowerSweep PC Users:** (This only applies to Cummins Inc. & Distributor Employees):

Cummins PowerSweep PC users that DO NOT have Local Administrative rights to their PC will require a HexaLock patch software installation. If you are a Cummins Inc. or Distributor Employee who wants to use these CD-ROM's, and you have a PowerSweep PC – please order the 'HexaLock' software from the Cummins Software Shelf. The Software Shelf personnel will contact you to arrange installation. Software will be installed remotely by Software Shelf personnel. Once software is installed; first reboot your PC. Then attempt to read your encrypted CD-ROM manual while Cummins Software Shelf personnel are still on the telephone.

Cummins Service Publications Electronic Books on CD-ROM are Copyright © Cummins Inc. Microsoft, Windows, and Windows NT are registered trademarks of Microsoft Corporation. HexaLock is Copyright © HexaLock, Ltd.

## Cummins Service/Parts Topics

**Service/Parts Topics is an annual subscription product that is a centralized compilation of Service/Parts Topics for your use. It is delivered to you on a bi-monthly basis (6 issues per year). It is available in both CD-ROM and Print Editions.**

### **Service/Parts Topics on CD-ROM:**

Each bi-monthly CD-ROM during a calendar year contains a complete collection of all Service/Parts Topics to date for the year. As you receive each issue, it is designed to replace the prior bi-monthly issue. You can always discard the previous CD-ROM, except for at year end. The year-end CD-ROM will be the archive for that year and contains the complete collection of all Service/Parts Topics published that year. The first CD-ROM of the new year, starts the cycle anew and DOES NOT contain information from prior years.

The CD-ROM edition includes bookmark indexes for easy searching by Topic Number, Engine Application, Fuels, Engine Series and File Group. You are able to perform these look-ups, looking at an individual month, or looking at the composite Year to Date bookmark indexes. Once in a particular Topic, you can do word and part number searches. Additionally, you have full print functionality if you need to print out a selected Topic.

To order a subscription to the CD-ROM edition, this bulletin number should be used:

**3810477** CD-ROM Service/Parts Topics Mail-Pac shipped bi-monthly 6 times a year.

(Please note: Customers that are part of the ProMotion Mail-Pac program will automatically receive this CD-ROM. If in addition to the CD-ROM a paper copy is required, please read the section below titled "Service/Parts Topics in Print".)

### **Service/Parts Topics in Print:**

Each bi-monthly Print Edition during a calendar year is a collection of all Service/Parts Topics for that bi-monthly period. These topics come loose-leaf and pre-drilled, in order by Topic number, and you can organize them in any manner you see fit. They are ready for you to be able to file in a binder for easy storage and reference.

To order a subscription to the Print edition, this bulletin number should be used:

**4021500** Printed Service/Parts Topics Mail-Pac shipped bi-monthly 6 times a year.

### **Special Notes:**

- All Full Service, Repair and Parts Dealers must have an active subscription to a Service/Parts Topics product or be registered with QuickServe On-Line to maintain their Cummins Dealer Certification.
- QuickServe On-Line customers do not automatically receive the CD-ROM or printed Service/Parts Topics subscription. To receive the Service/Parts Topics products, QSOL customers must order bulletin 3810477 (CD-ROM edition) or 4021500 (the print edition).

## Cummins Customized Parts Catalog

Cummins is pleased to announce the availability of a parts catalog compiled specifically for you. Unlike the generic versions of parts catalogs that support general high volume parts content; Cummins Customized catalogs contain only the new factory parts that were used to build your engine.

The catalog cover, as well as the content, is customized with you in mind. You can use it in your shop, at your worksite, or as a coffee table book in your RV or boat. The cover contains your name, company name, address, and telephone number. Your name and engine model identification even appears on the catalog spine. Everybody will know that Cummins created a catalog specifically for you.

This new catalog was designed to provide you with the exact information you need to order parts for your engine. This will be valuable for customers that do not have easy access to the Cummins Electronic Parts Catalog or the Cummins Parts Microfilm System.

Additional Features of the Customized Catalog include:

- Engine Configuration Data
- Table of Contents
- Separate Option and Parts Indexes
- Service Kits (when applicable)
- ReCon Part Numbers (when applicable)

## Ordering the Customized Parts Catalog

Ordering by Telephone:

North American customers can contact their Cummins Distributor or call Gannett Direct Marketing Services at 800-646-5609 and order by credit card. Outside North America order on-line or make an international call to Gannett at +--502-454-6660.

Ordering On-Line

The Customized Parts Catalog can be ordered On-Line from the Cummins Powerstore by credit card. Contact the Powerstore at [www.powerstore.cummins.com](http://www.powerstore.cummins.com)

Contact GDMS or the CUMMINS POWERSTORE for the current price; Freight may be an additional expense.

Information we need to take your Customized Parts Catalog Order. This information drives the cover content of the CPC.

- Customer Name
- Street Address
- Company Name (optional)
- Telephone No.
- Credit Card No.
- Cummins Engine Serial Number (located on the engine data plate)

Unfortunately not all Cummins Engines can be supported by this parts catalog. Engines older than 1984 or newer than 3 months may not have the necessary parts information to compile a catalog. We will contact you if this occurs and explain why we are unable to fill your order.

Customized Parts Catalogs are produced specifically for a single customer. This means they are not returnable for a refund. If we make an error and your catalog is not useable, we will correct that error by sending you a new catalog.
